

# BEYOND YOUR EXPECTATIONS

## What defines Dyna-Mac? A passion for excellence.

It is this passion that drives Dyna-Mac to surpass the expectations of our stakeholders from customers and business partners to shareholders each and every time.

Dyna-Mac is one of the world's leading players in the fabrication and assembly of topside modules for FPSOs and FSOs, as well as providing engineering and fabrication services for specialised offshore structures and other sub-sea products. Since 1998, Dyna-Mac has successfully loaded out over 150 topside modules for customers on-time with safety and quality at its 25,000-ton capacity yard in Singapore.
