21 December 2007

Dear Simon,

I would like to take this opportunity to thank and congratulate Dyna-Mac on the successful fabrication of the Sulphate Reduction / Reverse Osmosis Plants on both the Mondo and Saxi-Batuque Projects, building on the success of the Capixaba SRP Module completed in December 2005.

Dyna-Mac have demonstrated commitment to Safety and Quality during the execution of both projects, providing VWS Westgarth with the confidence that the SRP modules will perform well offshore. Furthermore, I must praise you and your staff on the outstanding service dedicated to VWS Westgarth, both on site and responding to queries from our Head Office.

VWS Westgarth look forward to building on our relationship with Dyna-Mac, and express our commitment to work together again on future Project's.

Best Regards,

Derek McIvor  
Project Manager
