**BERANTAI FPSO Modules P4,S1,S7**

We refer to the above work covering, procurement fabrication, and installation of Export Gas Compressor, Power Generation, Flare Systems modules carried out for BERANTAI FPSO from June 2011 to Jan 2012.

Petrofac appreciates the effort and congratulate Dyna-Mac for their commendable performance of the work which, completed as per schedule. Dyna-Mac's quality of workmanship was up to Petrofac's required standard in all phases and the project management team are very effective and worked well with Petrofac's personnel. Successful completion of these modules covers a significant volume of work and makes it possible for FPSO sail out on time.

In conclusion, Petrofac would like to thank Dyna-Mac's whole team for their positive commitment and concerted effort applied throughout the project and Dyna-Mac can be assured that Petrofac would not hesitate to utilize your services in future.

Once again our congratulations and appreciate the prompt delivery.

Yours Sincerely,

Mark Cowley  
Project Director  
FPSO Berantai Conversion Project  
For and on behalf of PIUAE LLC
